PRODUCT DESCRIPTION

Designer: Sebastian Summa

ORG P Vertical LED Pendant Light by DCW éditions

Designed by Sebastian Summa, the ORG Vertical pendant is inspired by astronomy and science fiction, taking on the form of a shooting star. The pendant light is made from glass and metal and has a beautiful colour combination of opal white and brass for an elegant and refined aesthetic. The integrated LED light source is concealed by the glass tubes, allowing for a warm diffusion that creates a gorgeous ambience in your interior.

With a cosmic feel, this pendant is truly a magnificent marvel and will add a touch of magic and act as a functional decoration in any space. Match with other lights from the [DCW éditions ORG collection](#) for a consistent lighting scheme.
