PRODUCT DESCRIPTION

DCW éditions Borely LED Wall Light

The DCW éditions Borely wall light was designed by Éric Gizard, who combines modernity and tradition in his creations. Made from brass and steel, this wall lamp is made up of three distinct parts, which work together to create a dynamic and graphic aesthetic. The integrated LED source reflects off the back, creating a diffused glow that spreads across the light and the wall.

Perfect for offices, homes and commercial settings, the Borely wall lamp is available in 3 colour finishes, black, bronze or gold. You can use the Borely alone in smaller spaces or in larger spaces for an effective and warm illumination. This wall light will provide a contemporary and elegant look whilst producing an efficient lighting solution.
