### Astro Harvard Outdoor Wall Light

The Astro Harvard Outdoor Wall Light is a modern interpretation of the classic lantern, combining a slim rectangular frame with clear glass panels for a clean and understated exterior look. Its exposed lamp design adds warmth and character, while the compact proportions give it a more contemporary feel than a traditional coach light. Available in Textured Black and Natural Brass, Harvard can either sit quietly within a scheme or bring in a warmer decorative finish.

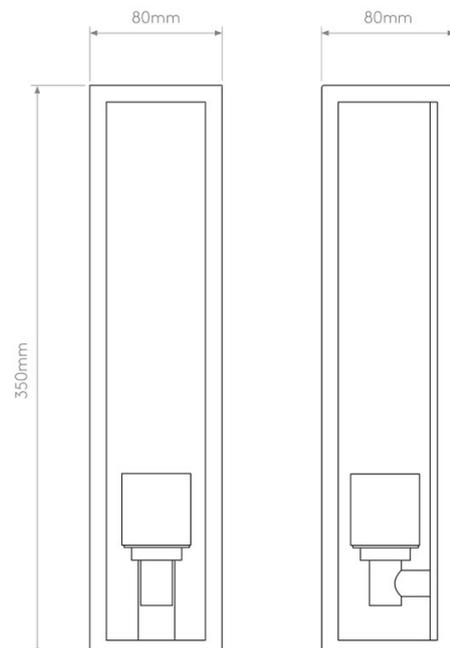

Rated IP44, Harvard is suitable for outdoor use as well as bathroom zones 2 and 3, making it a versatile option for exterior walls, entrances and covered spaces. The clear glass allows the chosen lamp to remain visible, helping to create a welcoming glow that works especially well around doorways, patios and hospitality settings. Its simple vertical form also makes it easy to use in pairs for a balanced architectural effect.

Harvard uses one E27 lamp, sold separately, and is dimmable when paired with a compatible dimmable bulb. Suitable for mounting on flammable surfaces, it is designed for wired wall installation and offers a neat, durable wall lighting solution. Please note that coastal suitability differs by finish, with Textured Black suitable for onerous environments, while Natural Brass is not suitable for installation within five miles of the coast.

## PRODUCT SPECIFICATION

- Light Source:** 1 x Max 4W E27 LED (Excluded)  
**IP Code:** 44  
**Dimming:** Dimmable via mains phase dimming.  
**Dimensions:** Height: 35cm
