PRODUCT DESCRIPTION

Designer: Søren Refsgaard

Le Klint Shibui Floor Lamp

The Shibui floor lamp is named after the Japanese term that is used to describe subjects and objects as subtle, simple and with an unobtrusive beauty. This floor lamp completely embodies this term, with a folded lampshade that has clear lines and a sleek black metal structure. The combination of metal and folded plastic foil forms an effective contrast and beautifully blends a classic and contemporary aesthetic.

The Shibui floor light has an adjustable frame, with a minimum height of 100cm and a maximum height of 144cm. The light bulb is concealed by the shade, creating a diffused glow that surrounds the lamp. The opening at the bottom of the shade allows light to stream out, perfect for reading beside. Suitable for a wide variety of settings, this floor light can be used for functional illumination while adding a welcoming ambience to any space.
