PRODUCT DESCRIPTION

Designer: Bert Frank Design Team

Colt LED Table Lamp by Bert Frank

The Colt table lamp is a graceful and elegant light, made from solid brass for a refined and classic look. Like the rest of the Bert Frank Colt collection, this table light is inspired by British engineering and more specifically classic cars, using the grill commonly found on the front of them as a design feature on the lampshade. The shade also has a slim rounded aesthetic, and emits light downwards and upwards for a lovely ambient glow.

Suitable for use on tables, desks, side tables and more, the Colt table light also has a handy pen tray in the base for versatility. Adding a stunning touch to any interior, you can use the table light in many spaces around the home or in professional settings.
