Revolve Table Lamp by Bert Frank

A part of the Bert Frank Revolve collection, the Revolve table lamp is a gorgeous and elegant light that can be used on desks, tables and side tables to add ambience and effective lighting. The table light has a metal lampshade with a polycarbonate diffuser which spreads the light evenly for a soft glow. The shade also has an opening in the top, allowing light to escape upwards, reflecting off the beautiful brass finial to create gorgeous highlights.

The Revolve table light also comes with a refined brass pull switch, harking back to Mid-Century Modern design and minimalist style. The table lamp comes in four colour finishes, blue, black, green or white and has a brushed brass structure with a colour-matched base which adds a striking detail. Suitable for professional and domestic settings.
