PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 4½-3 Outdoor Wall Light

The Louis Poulsen PH Outdoor Wall Light was first launched in 1966 and takes its design from the iconic three-shade system range designed by Poul Henningsen in the 1920s. The system was developed as Henningsen wanted to create an effective light that was anti-glare and could be used in a wide variety of settings. This is achieved by the ratios of each shade, which distribute light evenly for a warm glow.

The system is applied here to the PH 4½-3 Outdoor Wall Light, crafted from copper for a vintage and luxurious look. The wall lamp can be used in many exteriors, whether you want to line your garden or have a nice welcome light at the doorway. The glare-free illumination expertly illuminates your exterior, creating cosy pockets of light.

Please Note: Due to the lower IP rating, the Louis Poulsen PH 4½-3 Outdoor Wall Light can only be used in sheltered areas in external settings.

PRODUCT SPECIFICATION

Light Source:	1 x Max 12W E27 LED (Excluded)
IP Code:	23
Dimming:	Non-Dimmable.
Dimensions:	Shade: Ø45cm Shade Height: 29cm Depth: 50.5cm Wall Base: Ø15.5cm
