PRODUCT DESCRIPTION

Designer: Astro Design Team

Astro Tacoma Single Globe Wall Light

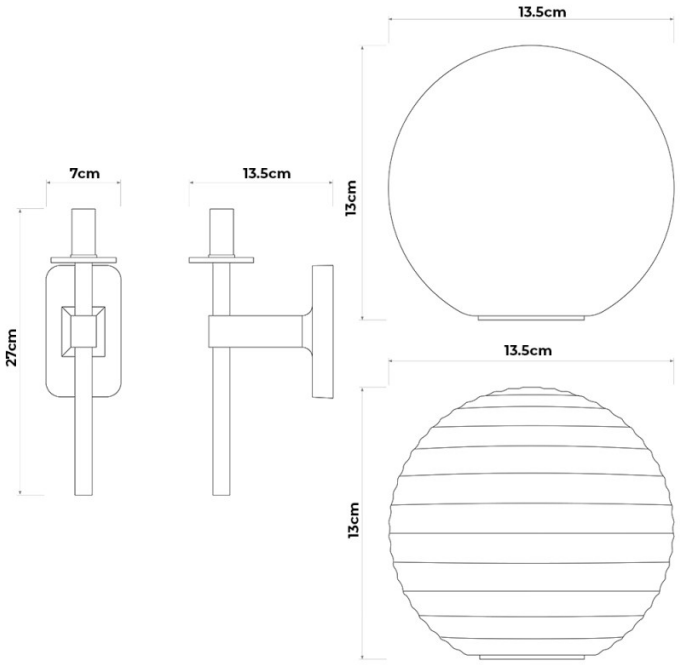

Astro Tacoma Single Globe Wall Light is a wired-in wall light with a vertical wall-mount orientation, IP44 rating, and a choice of Antique Brass, Matt Black, or Polished Chrome body finishes.

This version uses the globe Tacoma shade format, with White, Ribbed White, Ribbed Smoke, and Ribbed Clear shade options available. The shade is paired with the Tacoma single-wall body, allowing the same compact wall light to be specified with a softer opal look, a ribbed glass texture, or a clearer glass finish.

The Tacoma Single Globe Wall Light is unswitched and dimmable depending on the lamp selected, with Class I earthed construction and no separate driver required. It can be used individually, in pairs, or alongside other fittings from the Tacoma collection. Most suited to bathrooms, hallways, bedrooms, dining rooms, and compact wall-lighting schemes.
