PRODUCT DESCRIPTION

Designer: Daniel Lopez

Marset Ledtube Mini LED Wall Light

Marset Ledtube Mini LED Wall Light is a compact reading wall light by Daniel López, developed as a smaller version of the original Ledtube. It keeps the same practical tubular form in a reduced size, with an injected aluminium structure and a transparent polycarbonate frontal piece. The light is designed for focused reading use, with a 25º lens and honeycomb grill to help control glare.

The Mini version works well where a reading light needs to take up as little space as possible. When opened, the light switches on, and when folded away, it switches off again, keeping the fitting simple to use from bed or beside a seating area. Its compact size makes it useful for headboards, guest rooms, hotel rooms, small bedrooms, and tighter bedside layouts where a larger wall light may feel too prominent.

Ledtube Mini is hardwired and available in Aluminium, Bronze, Matt White, and Matt Black finishes. The integrated LED gives warm 2700K light, with a focused beam for close reading. Most suited to bedrooms, bedside areas, headboards, hotel rooms, guest rooms, reading corners, and contract interiors where a small directional wall light is needed.

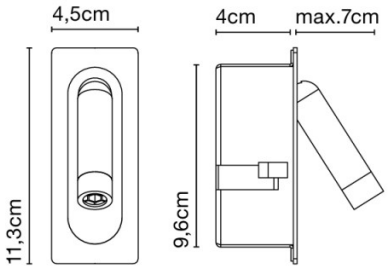

PRODUCT SPECIFICATION

Light Source: 4.33W, 2700K, 45 Lumens

IP Code: 20

Dimming: Integrated on/off switch on the product.

Dimensions: Height: 11.3cm
Width: 4.5cm
