PRODUCT DESCRIPTION

Designer: Luca De Bona and Dario De Meo

Karman Notredame LED Suspension Light

The Notredame LED Suspension was designed by Luca De Bona and Dario De Meo who describe themselves as 'synergistic, innovative, courageous'. This is clear within the design of the Notredame Suspension light that brings together the old and the new. Inspired by ancient gothic cathedral windows, these technopolymer LED structures bring a modern touch to an ancient design.

Available in both a white and gold finish, these Suspension lights would be ideal for any interior. For example, over a dining table or hallway, these LED Karman Suspensions will never fail to make a statement. The newer gold finish produces a unique metallic reflection wherever it is placed. The Notredame pendant is available in a large size (98 x 83 cm), please [contact us](#) for more information.
