Parachilna Aballs A Wall Light

The Aballs A wall lamp by Parachilna features a metallic ceramic wall base that branches out and away from the wall to create a more generous beam of light. The wall mount features a classically circular base that morphs into the Aballs metallic base design that is available in a selection of colours. The finishes you can choose from are golden and black. All of which add an elegant touch to your space. The globe-like, frosted glass shade sits proudly on top of the base and allows for a 360-degree outpouring of uninterrupted, beautifully diffused light.

This extravagant wall lamp was designed by Jaime Hayon, a skilled visionary who has created designs for brands all across the globe. Hayon's work has been described as 'blurring the lines between art, decoration, and design'. This can be seen in the design of the [Aballs collection](#).
