PRODUCT DESCRIPTION

Designer: Vantot Studio

Mono LED Pendant Light by DCW éditions

The Mono pendant was designed by Vantot, the collective name of designers Esther Jongsma and Sam van Gorp who both endeavour to create innovative objects. This pendant light meets this expectation as it consists of a glass disc that is lit up by a frosted glass sphere containing an integrated LED light source. The pendant resembles something out of space, like an orbiting planet with beautiful rings, looking elegant and refined when suspended in the air.

The Mono pendant lamp is available in 3 sizes, Mono M400, Mono L500 and Mono L600, which range from the smallest to the largest. The gorgeous glass disc is movable to create a unique aesthetic and the lampshade also features a "magicstick" which allows the user to dim the light source with a soft and simple touch. This feature creates a stunning atmosphere that is tailored to the space and need, giving the user an interactive experience. Use in many types of interiors as a main or feature light whether used alone or in multiple.

PRODUCT SPECIFICATION

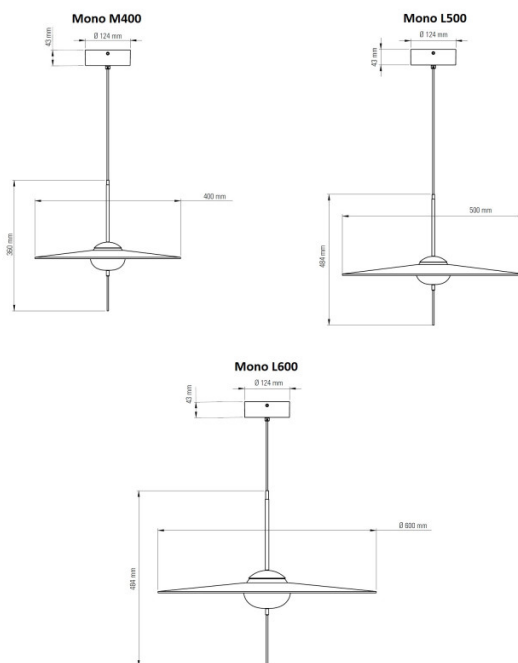

Light Source: Mono M400 - 8.4W, 2700K, 840 lumens
Mono L500 - 13W, 2700K, 1300 lumens
Mono L600 - 13W, 2700K, 1300 lumens
