PRODUCT DESCRIPTION

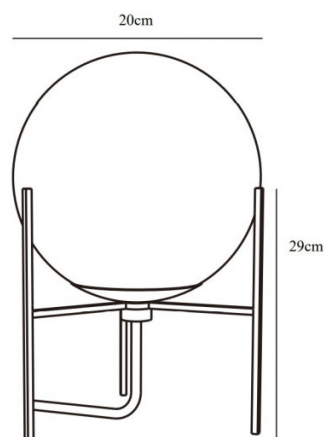

Alton Table Lamp by Nordlux

The Alton table lamp is characterised by a glass globe that sits in a simple three-legged structure. Inspired by the principles of Nordic design, this table light thoroughly encapsulates those principles by having a minimalist and simplistic design.

The Alton table light works best as an ambient light, producing a welcoming and soft illumination for your interior. The table lamp is available with either a smoked glass or opal white glass lampshade which are paired with a black or brass structure respectively. Refined, elegant and well-made, the Alton will add a touch of gracefulness to your space.
