PRODUCT DESCRIPTION

Designer: Charles Kalpakian

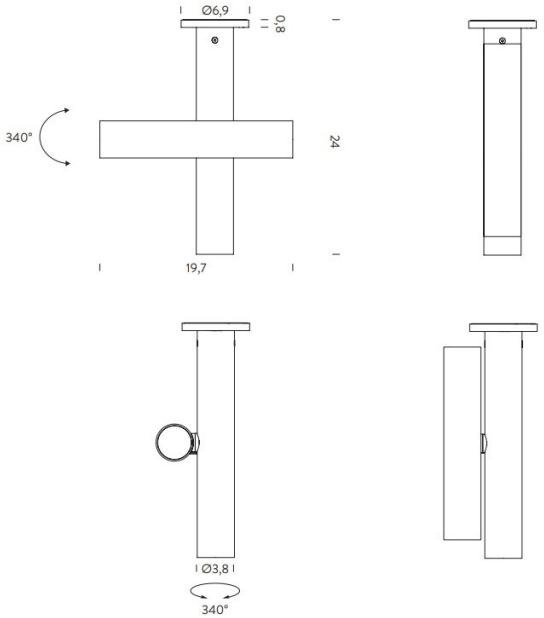

Nemo Lighting Tubes LED Ceiling Light

The Nemo Lighting Tubes LED Ceiling light is the most recent addition to the Tubes collection and features two light sources located inside the extruded aluminium tubes. A unique feature of this ceiling lamp is the adjustable tube that runs parallel to the other. This tube can be moved and rotated to create a spotlight effect perfect for functional spaces such as work areas and offices.

This simple design is compact as well as powerful and not only provides a clear downlight but also a customisable task light that can act as the perfect lighting solution for your space.
