Astro io LED Pendant 1000

Astro io LED Pendant 1000 is a long glass pendant light with an integrated LED, available in Matt Black and Polished Chrome finishes. The components are discreetly hidden within the fitting, keeping the clear glass as the main visible feature.

The handcrafted pendant uses clear glass to subtly reflect and refract the light, giving the io Pendant a more detailed appearance than a simple linear fitting. Its wide horizontal form works well above dining tables, kitchen islands, counters, and longer surfaces where a single pendant needs to cover more length.

The io Pendant 1000 is wired in, unswitched, and dimmable using trailing-edge dimming, with no separate driver required. Its adjustable cable length allows the pendant to be set to suit the ceiling height and surface below. Most suited to dining rooms, kitchen islands, counters, restaurants, cafés, galleries, and longer interior spaces.
