PRODUCT DESCRIPTION

Designer: Francesca Smiraglia

KDLN Model T LED Floor Lamp

The KDLN Model T LED Floor Lamp was designed by Francesca Smiraglia and was inspired by De Stijl (also known as Neoplasticism), a Dutch art movement founded in 1917. This floor lamp boasts a minimalist form, and a sculptural quality, making it easy to adapt to multiple interiors. This unique LED floor lamp is available in a neutral white, neutral black or a bolder red if you are looking to add a burst of colour to your environment. The weighted base ensures the light remains balanced, with no worry of it being knocked over.

The LED light source emits a warm glow that is diffused through the plexiglass - resulting in ambient illumination, perfect for lounge areas. Although, Model T is a universal lamp which can be used in most rooms of your house and even in commercial settings. Thanks to the in-line dimmer on the cable, the KDLN Model T offers you full personalisation of the light intensity, meaning you can curate the perfect atmosphere in the room.

Please Note: this floor lamp comes with a cable and plug, so must be installed near a socket.
