PRODUCT DESCRIPTION

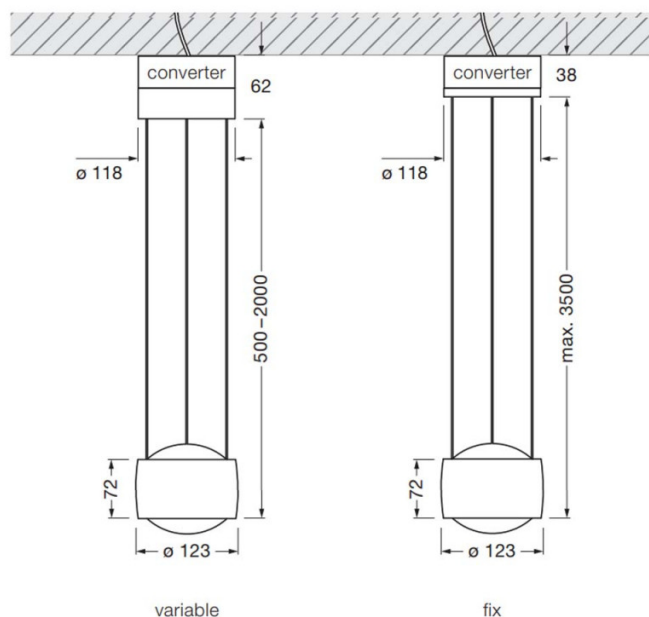

Occhio Sento Sospeso LED Pendant

The Sento Sospeso LED Pendant by Occhio provides comfort and ease of use, a suspended light source that offers a sophisticated lighting solution for a range of interiors. This pendant is available with just a downlight, or with both a downlight and uplight; it can be easily personalised to what your environment needs. The Sento Sospeso Pendant appears to float in mid-air at your desired height and can be easily controlled by a simple gesture. You can control the uplight and the downlight separately, either by a gesture using touchless control or via Occhio Air, an optional remote control.

The Occhio Sento Pendant can be displayed individually or grouped together to form a cluster of varying heights. This minimalist lighting solution provides a concentrated downlight and a softer ambient illumination that shines upwards, and is a striking addition to kitchens and dining areas in contemporary homes.
