PRODUCT DESCRIPTION

Designer: Studio 0405

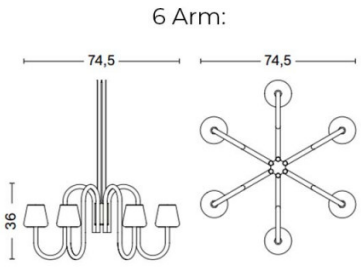

HAY Apollo Chandelier

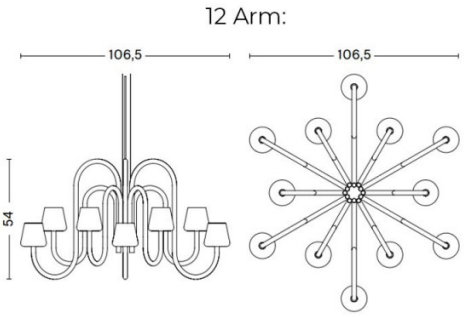

The HAY Apollo Chandelier, designed by Studio 0405, is a contemporary take on a classic chandelier structure. Multiple mouth-blown opal glass shades atop curved tubular arms create a contrasting expression of materials. When illuminated, the shades project light upwards, causing it to reflect on the ceiling for a glare-free, ambient glow. This atmospheric lighting is a stunning addition to hallways, living rooms, dining areas and large commercial spaces such as offices, restaurants and hotels.

The HAY Apollo Chandelier is available in two sizes, with either six or twelve arms. As each shade is crafted from mouth-blown glass, slight variations may occur from piece to piece, ensuring you have a truly unique luminaire. The HAY Apollo Chandelier is part of the progressive and technologically advanced **Apollo Collection**, which includes a **Wall Light**, **Table Lamp** and **Portable Lamp.** Display together throughout the home for a balanced and cohesive theme.

PRODUCT SPECIFICATION
