PRODUCT DESCRIPTION

Designer: Franco Albini

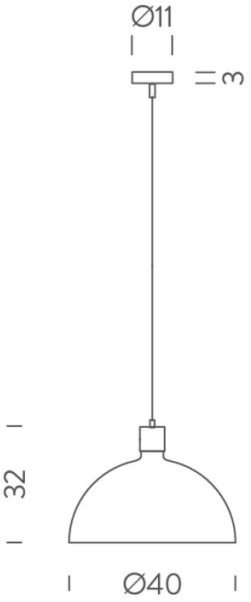

Nemo Lighting Albini AM4C Pendant

The Nemo Lighting Albini AM4C Pendant pairs a rounded, opal white glass shade with chrome-finished steel detailing for an understated architectural look. Part of Franco Albini's **Albini AM/AS Collection**, designed in 1969, it reflects his rationalist approach through simple forms and carefully considered materials. The hand-blown glass brings softness to the precise metalwork, creating a balanced design that continues to enhance interiors today.

When illuminated, the AM4C diffuses light through its glass shade to create a soft ambient glow. Install individually above a dining table or arrange several over a kitchen island to introduce a cohesive lighting feature without overwhelming the space. Display with other pieces from the collection to create a balanced display that celebrates classic Italian lighting design.
