LYFA Memoir Chandelier

GamFratesi designed the LYFA Memoir Chandelier with bold contrasts in mind, featuring layered opal shades that are gently shaped with a tip at the bottom, the style evokes historical elements and styles of the past. In contrast, the strong metal suspension and linear connectors are modern and graphic elements. The entire premise was to provide a modern take on a classic chandelier, combining simplicity and functionality. Memoir Chandelier is designed to bring luminous sculptures to life, providing a contemporary lighting solution for both residential and commercial environments.

Available with either three or five light sources and granting you the choice between a black or brass finish, this chandelier can adapt to a large array of modern interiors. The LYFA Memoir produces a calming ambient illumination that is diffused through the three-layered glass and looks exceptionally beautiful when presented above dining tables, coffee tables or kitchen islands.
