PRODUCT DESCRIPTION

Designer: Bert Frank Design Team

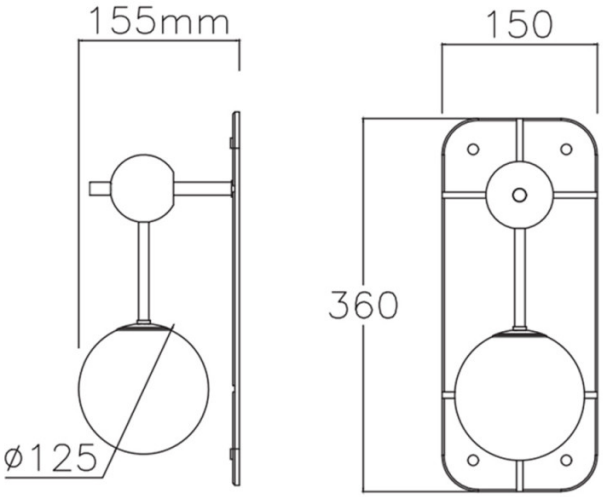

Bert Frank Rift Wall Light

The Bert Frank Rift Wall Light plays with form and function and combines a spherical opal glass diffuser and a solid brass back plate. Both aspects not only perfect the sophisticated style with industrial undertones but also ensure a soft and even dispersion of light, the glass globe diffuses the light source to avoid glare and the brass plate reflects the illumination out towards the rest of the room.

The IP44 rating ensures that the Rift Wall Light can be used in wet spaces such as bathrooms, providing a calming illumination in early mornings and late nights to help you ease into the day or unwind in the evenings. Handcrafted in the UK, this wall light can suit almost any contemporary interior and can be used singularly or in pairs on either side of a bathroom sink or mirror.
