PRODUCT DESCRIPTION

Designer: Simon Legald

Normann Copenhagen Pix Wall Light

Normann Copenhagen Pix Wall Light was created by Danish designer, Simon Legald. It utilises a smooth silhouette and a unique, speckled surface constructed entirely from 100% recycled plastic waste. The Pix Wall Light features a striking yet understated design, showcasing the exceptional craftsmanship of the specialists. Pix Wall Light provides bright and clear illumination to enhance any setting.

Pix Wall Light is available in two sizes: Ø20cm and Ø30cm, and these simplistic lamps can be displayed singularly or in a cluster for an elevated aesthetically pleasing environment in both commercial and residential settings. Each Pix Wall Light comes with a silver-painted steel base which secures onto the wall. Legald also created a pendant and a ceiling light version to complete the [Pix Collection](#).
