PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Melt Burst Chandelier

Part of the iconic **Melt Collection**, the Tom Dixon Melt Burst Chandelier brings together 12 abstract polycarbonate diffusers, each with its own integrated LED light source. When switched off, the shades have a mirrored appearance. Once illuminated, they become translucent and take on the molten glass effect that defines the Melt collection. The result is a large-scale chandelier that combines sculptural form with a warm, diffused light.

Made in Germany using a high-tech manufacturing process developed to create the distinctive melted orb, the Melt Burst Chandelier is available in a range of finishes, including Silver, Gold, Copper, Smoke, Opal and the new Nickel option. Its size and arrangement make it particularly suited to entrance halls, dining areas, stairwells and larger commercial interiors such as hotel lobbies, restaurants and bars.

Tom Dixon introduced Bronze in celebration of Melt's tenth anniversary, adding a softer, more muted metallic tone to the collection. For 2026, the range has been expanded again with Nickel, bringing a cooler metallic finish to the Melt palette.

Please Note: The integrated LED light engine of the Melt Burst is replaceable. This can only be sourced via Tom Dixon. Please contact us for more details and pricing.

PRODUCT SPECIFICATION

Light Source:	85W, 3000K, 7100 Lumens
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Height: 164cm Depth: 136.5cm Width: 153cm Cable Length: 500cm
