PRODUCT DESCRIPTION

Designer: Meneghello Paoletti Associati

Luceplan Doi LED Suspension

A creative luminaire with a big personality, the Luceplan Doi LED Suspension was designed by Meneghello Paoletti and consists of a thin cylindrical body which houses the light source and an accompanying circular counterweight. The components are easily adjusted - the light source structure is fitted with a magnetic strip, connecting it to the counterweight and allowing the user to define the position.

The directional spotlight is not only adjustable in terms of angle but can also be easily dimmed, allowing you to further personalise the ambience. Doi boasts a strong presence and can adapt to a range of modern interiors, for both residential and commercial spaces - especially in kitchens, dining areas and bedrooms. A beautiful addition to hotels, restaurants, bars and galleries.
