PRODUCT DESCRIPTION

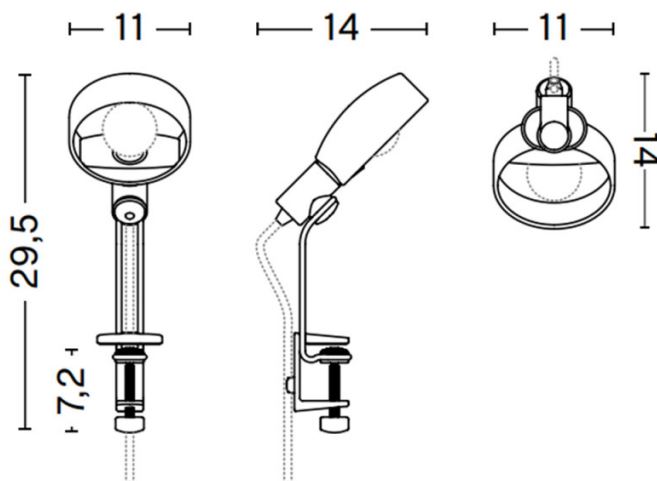

Designer: John Tree

HAY Cupola Clip Lamp

A sleek and minimalistic design by John Tree, the HAY Cupola Clip Lamp provides focused directional lighting, whilst taking up little space. The slender frame houses a rounded lamp head that can be rotated 360° and a clamp base that allows you to save space on your desktop without having to sacrifice on functionality. Cupola is crafted from durable aluminium with a natural anodised finish, adding an industrial touch to your space whilst exploring the possibilities of providing optimal movement using minimal mechanisms.

The Cupola Clip Lamp is an excellent addition to your office or other workspaces, it can also be utilised as a reading light in living rooms and bedrooms or attached to shelves and bookcases for unique accent lighting. The in-line on/off switch means the light source can be easily controlled and the rotatable head means you can choose between direct or indirect illumination.
