PRODUCT DESCRIPTION

Designer: Phillipe Starck

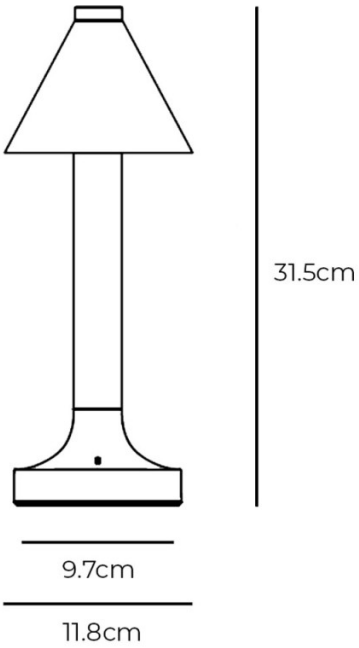

Kartell Goodnight Cap LED Portable Lamp

A 2024 addition to Kartell's range of ambient lighting solutions, the Goodnight Cap LED Portable Lamp was designed by Phillipe Starck to resemble candlelight. Goodnight revisits the candle in its primordial form and transforms it into a highly technological object, fitted with an LED light source and utilising an integrated dimmer to allow you to fully control the output of light with three different light intensities.

The Kartell Goodnight Cap Portable Lamp provides a warm and inviting glow that, thanks to the conical diffuser, is projected downwards towards the surface below. The result is an indirect illumination that is perfect for bedrooms, living rooms, dining spaces, hotels, restaurants and bars. Available in six finishes, this modern lamp can adapt to a wide range of interiors and personal styles.
