PRODUCT DESCRIPTION

Designer: Omer Arbel

Bocci 100 Series LED Random Multiple Pendant

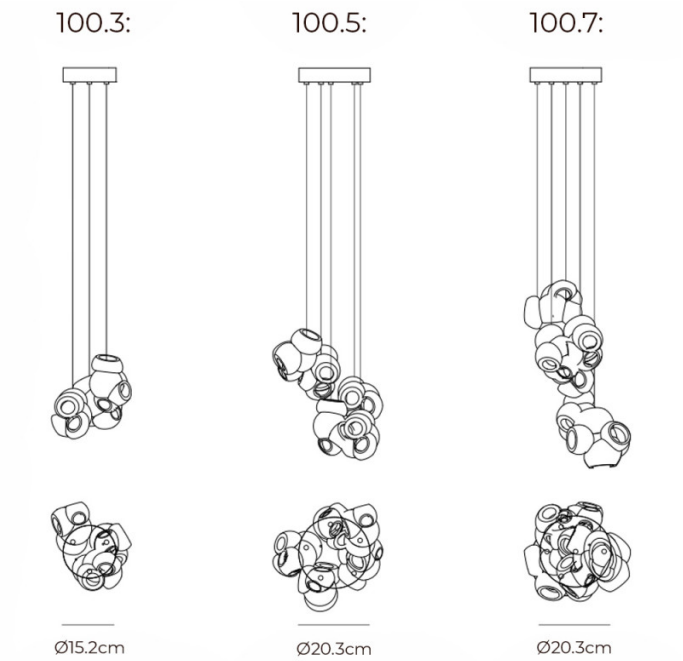

The Bocci 100 Series LED Random Multiple Pendant is a stunning display of artisan glassblowing, designed by Omer Arbel. This piece is crafted through a carefully choreographed process where multiple glassblowers work together to create individual hand-blown glass spheres. Each pendant cluster embodies a unique interplay of inner and outer surfaces, revealed by a diamond saw cut that exposes the glass layers. The integrated LED light source further highlights this complexity, producing an ambient glow that enhances the pendant's dynamic, interlocking design.

Available in configurations of 3, 5, or 7 pendants, the 100 Series Random Multiple Pendant is designed to suit a wide range of spaces, from intimate settings to larger installations. Each pendant can be suspended at various lengths using coaxial cables, creating a random, freeform arrangement, while the initial cable can be supplied at a maximum of either 3m or 6m. Choose from a selection of frosted glass finishes in Clear, Grey, or Pink and canopy options in white, brushed nickel, or black. This versatile lighting solution combines elegance with artisanal craftsmanship, making it ideal for both residential and commercial environments.

Please Note: The handcrafted nature of the Bocci 100 Series LED Random Multiple Pendant means that each piece will be unique and will vary in size and shape.

PRODUCT SPECIFICATION

Light Source:	1W, 2700K, 100 Lumens 2500K and 3000K options are available on request.
IP Code:	20
Dimming:	Dimmable via trailing edge mains phase (Please note control must be compatible with electronic low voltage)
Dimensions:	**100.3**: Ø15.2cm (Size will vary) **100.5**: Ø20.3cm (Size will vary) **100.7**: Ø20.3cm (Size will vary) Cable Length: 300cm or 600cm
