PRODUCT DESCRIPTION

Designer: Poul Henningsen

Louis Poulsen PH 3½-3 Pale Rose Brass Pendant

The Louis Poulsen PH 3½/3 Pale Rose Brass Pendant is designed based on a classic 1926 design by Poul Henningsen. In the late 1920s, when electric light began to replace candle chandeliers and kerosene lamps, Henningsen designed the PH system to provide efficient, glare-free lighting in the home. The three-shade system proved that people could have the cosy atmosphere they were familiar with, without having to compromise on the quality of lighting. The PH 3½/3 Pendant is an excellent example of this philosophy. The mouth-blown glass shades conceal the light source, reducing any glare, while diffusing the light into a warm glow that surrounds the pendant.

The sleek design of the PH 3½/3 Pale Rose Brass Pendant makes it very versatile and suitable for almost any spot within the home. Designed to hang up high in a room, it emits a cosy and inviting ambience that fits perfectly in any bedroom or living room. While giving a distinctive appearance on its own, the pendant creates an even more impressive display when installed in a row. The untreated brass will patina over time, giving the pendant a unique character. However, if desired, it may be polished to maintain its original finish.

PRODUCT SPECIFICATION

Light Source:	1 x Max 10W E27 LED (Excluded)
IP Code:	20
Dimming:	Dimmable via mains phase dimming.
Dimensions:	Ø32.7cm Height: 21.9cm Cable Length: 320cm
