PRODUCT DESCRIPTION

Designer: Sir Kenneth Grange

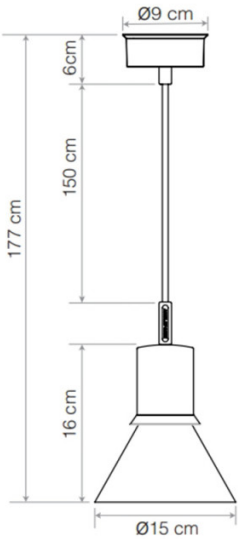

Anglepoise Type 80 Opal Glass Edition Pendant

The Anglepoise Type 80 Opal Glass Edition Pendant is the newest addition to designer Sir Kenneth Grange's **Type 80 Collection.** This new version features the same graphic shade profile synonymous with the collection, reimagined in opal glass for an additional touch of elegance. Sir Kenneth Grange believed that products need to be a pleasure to use, and his concepts evolved continuously as he reassessed the purpose, function and use of each design. The Type 80's iconic and timeless form is an excellent example of this ethos, creating a decorative presence while filling the room with comfortable and inviting light.

The Type 80 Opal Glass Pendant features a sleek, conical profile with an opal glass diffuser that filters light into a warm glow that surrounds the shade. Its downward-directed light makes it suitable for illuminating work surfaces or dining tables while adding ambient lighting to the room. Install individually or in multiples, in rows or clusters to create a unique composition. The Type 80 Opal Edition complements both residential and commercial spaces, adding an ornamental touch to any interior.
