PRODUCT DESCRIPTION

Designer: Aleksandar Lazic

Audo Copenhagen Reverse LED Portable Lamp

The Audo Copenhagen Reverse Portable Lamp was designed by Aleksandar Lazic. This is a portable iteration of the **Reverse Table Lamp** which was launched in 2020. Like its counterpart, the design is inspired by 1970s Italian marble tables and is a celebration of natural materials and craftsmanship. The beauty of travertine's natural state is revealed in the lamp's compact conical base. The bronzed aluminium shade creates a striking contrast against the rugged stone base, its elegant curves and smooth surface adding a contemporary edge to the design.

The Reverse Portable Table Lamp is IP rated 44, making it suitable for wet rooms and outdoor areas. It is equipped with a three-step dimmer, allowing you to adjust the brightness to meet your requirements. The soft, glare-free light emitted from the lamp creates a welcoming and warm atmosphere, perfect for a bedside table, living room, or illuminating a garden table. The rechargeable lamp is also compatible with the Audo Charging Board.

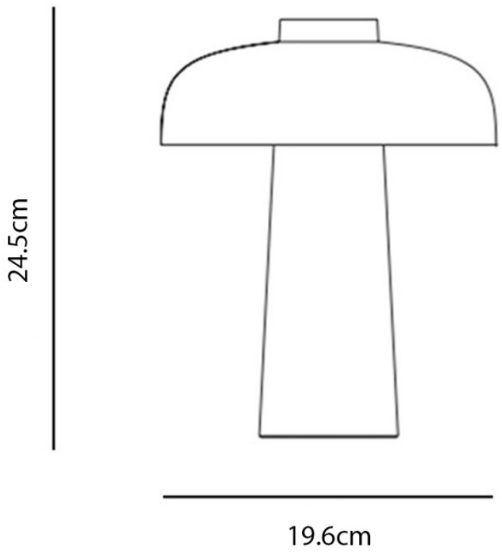

PRODUCT SPECIFICATION

Light Source: 2.5W, 2700K, 125 Lumens

IP Code: 44

Dimming: Integrated dimmer on the product.

Dimensions: Ø19.6cm
Height: 24.5cm
Charging Cable Length: 100cm
