Marset Dipping Light LED Suspension

Marset Dipping Light LED Wall Light is a compact wall light by Jordi Canudas, made with a glossy blown glass globe and layered painted finish. The Dipping Light collection began with a lit bulb dipped repeatedly into paint, creating rings of colour across the glass. On the wall version, that effect gives the fitting colour and depth while keeping the form simple.

The wall light works well in places where a small fitting needs to do more than provide plain background light. It can sit beside a bed, along a hallway, in a living room, or be repeated through a restaurant, café, or hotel corridor. When lit, the painted glass filters the light and gives the wall around it a warmer, coloured effect. When off, the globe still has enough form and colour to be part of the room.

The integrated LED is hardwired and dimmable via Triac dimming through a compatible system. Finishes include White, Green, Amber, Burgundy, Chocolate, and Cream, all paired with a Brushed Brass structure. Most suited to bedrooms, hallways, living rooms, dining areas, restaurants, cafés, hotels, and interiors where a small wall light can bring colour and warm light to the wall.

PRODUCT SPECIFICATION

Light Source:	23.7W, 2700K, 1482 Lumens
IP Code:	20
Dimming:	Dimmable using trailing edge and leading edge dimming (Triac).
Dimensions:	Shade: Ø40cm Ceiling Canopy: Ø13cm Cable Length: 300cm
