### PRODUCT DESCRIPTION

**Designer:** Jordi Canudas

### Marset Dipping Light LED Suspension

Marset Dipping Light LED Suspension is the larger pendant in the Dipping Light collection, with a hand-blown glass globe finished in layered paint. Designed by Jordi Canudas, the collection began with a lit bulb dipped into paint, building up rings of colour that filter the light through the glass. On this suspension version, the design is pared back to the coloured globe, black cable, and metal canopy, allowing the scale and finish of the shade to take the focus.

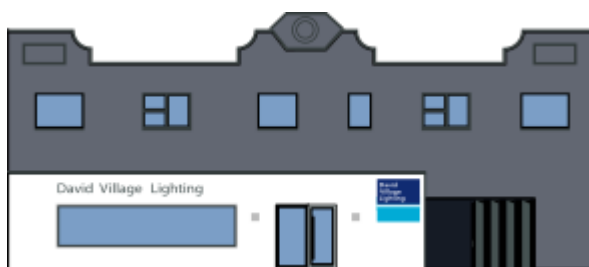

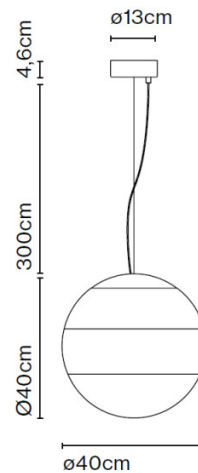

The 40cm globe gives this version a stronger presence than the smaller pendants in the collection. It works well over a dining table, in a living room, through an entrance space, or in a commercial interior where a single pendant needs to feel generous without becoming overly decorative. When lit, the layered paint softens the warm 2700K light and brings colour into the surrounding area. When unlit, the glass remains a strong coloured object within the room.

This version is hardwired, supplied with a black electrical cord and black canopy, and includes an integrated LED with Triac dimming through a compatible system. Available finishes are White, Green, Amber, Burgundy, Chocolate, and Cream. Most suited to dining rooms, living rooms, entrance spaces, restaurants, hotels, and larger interiors where a single coloured glass pendant can provide warm, softened light with a clear visual presence.

## PRODUCT SPECIFICATION

**Light Source:** 23.7W, 2700K, 1482 Lumens  
**IP Code:** 20  
**Dimming:** Dimmable using trailing edge and leading edge dimming (Triac).  
**Dimensions:** Shade: Ø40cm  
Ceiling Canopy: Ø13cm  
Cable Length: 300cm
