Tom Raffield Drift Pendant

Tom Raffield designed the Drift Pendant for his Cornish studio. Inspired by the coastline's natural beauty, the pendant features rolling waves of oak or walnut timber. These organic-looking rolls are created by steam-bending the wood, a process that twists and bends it beyond any seemingly possible limits. Since learning this method in university, Tom Raffield has found himself a world leader in the craft, preferring it due to its sustainable qualities. Each pendant is expertly hand-crafted in his studio, ensuring exceptional quality.

The Drift Pendant is available in an oak or walnut finish. Oak's strength and durability make it a popular choice for furniture and lighting within the home. Its warm tones bring a bright and welcoming atmosphere to any room and complement a wide range of decor. The darker, rich tones of walnut bring a sense of luxury to any space. When illuminated, the wood has a golden hue, adding depth to the finish. Display above a bed or dining table as a statement piece. In larger spaces with higher ceilings, install in multiples with both finishes at varying heights to create a showstopping installation that will ignite conversation and add layers of character to the room. The Drift Pendant is suitable for both domestic and commercial spaces and will complement natural furnishings.

Please Note: This pendant light is supplied with a brass socket and ceiling canopy with a black cable as standard. Other options are available, please [contact us](#) for more information and pricing.

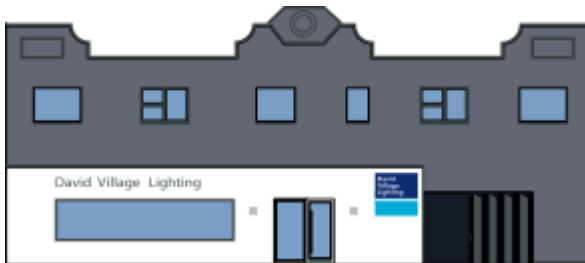

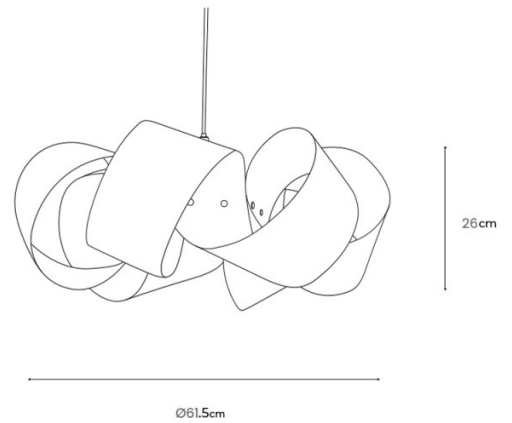

PRODUCT SPECIFICATION

Light Source: 1 x Max 25W E27 LED (Excluded)

IP Code: 20

Dimming: Dimmable using trailing edge dimming.

Dimensions: Ø61.5cm
Height: 26cm
Cable Length: 200cm
