PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Caramel Triple LED Wall Light

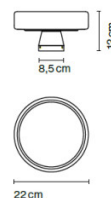

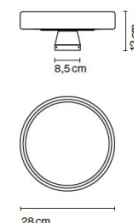

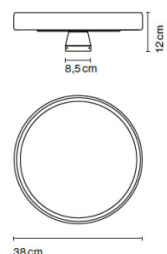

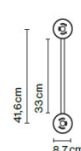

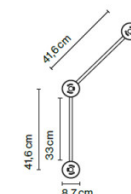

The Marset Caramel Triple LED Wall Light offers an even more dramatic and flexible approach to modular wall lighting. By linking three Caramel Wall Lights via a refined black or matt gold accessory, this fixture allows for stunning layered arrangements. Whether aligned in a linear formation or staggered for a more dynamic composition, the Caramel Triple provides a versatile and eye-catching solution for any modern interior.

Each blown glass shade enhances the ambient lighting with a soft, diffused glow, perfect for creating warmth and depth in living spaces, hospitality venues, or retail settings. The integrated LED system ensures energy-efficient illumination, while the trailing edge dimming enables precise lighting control. With a mix-and-match selection of sizes and colours, this bespoke lighting system is ideal for those seeking a custom aesthetic that adapts to their space.

This hardwired fixture ensures a seamless and polished installation, making it a compelling statement piece in hallways, lobbies, or dining areas. Whether used as a focal point in a residential setting or as a refined architectural element in commercial interiors, the Marset Caramel Triple embodies sculptural elegance and modern functionality.
