PRODUCT DESCRIPTION

Designer: Robbie Llewellyn

Bert Frank Doma Wall Light

The Bert Frank Doma Wall Light balances form and function with refined simplicity. Designed with practicality in mind, it incorporates a discreet brass switch, making it particularly well suited to bedside settings or task-focused areas. The design features a ribbed front cap in Brushed Brass as standard, offering subtle texture and an elevated finish.

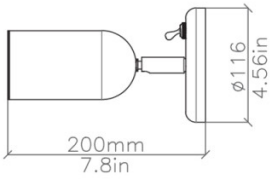

Fitted with a LED bulb, the Doma Wall Light emits warm white light at 2700K - ideal for focused illumination without harsh glare. As with all Bert Frank lighting, it is made to order in the brand's Birmingham workshop using a blend of traditional craftsmanship and advanced engineering techniques.

Available in four luxurious finishes - Brushed Brass, Antique Brass, Dark Bronze, and Satin Nickel - the Doma Wall Light lends itself to both residential and commercial interiors. Its understated aesthetic ensures seamless integration with a wide range of interior styles, from minimal and contemporary to more classic schemes.
