Designer: BEGA

BEGA 22215 LED Outdoor Wall Light

A compact and durable lighting solution, the BEGA 22215 LED Outdoor Wall Light produces a functional downlight that illuminates the wall below. A glass diffuser ensures a visually comforting illumination and prevents glare, whilst the two sleek finish options, graphite or silver, allow the design to suit a range of environments and architecture.

The BEGA 22215 Wall Light harnesses an IP64 rating, ensuring it's protected from the elements and can be used in exterior settings. For this reason, the luminaire makes an exceptional addition to building exteriors, pathways, and garden steps and can be displayed individually or in multiples for larger spaces.
