PRODUCT DESCRIPTION

Designer: Norm Architects

Audo Copenhagen Chancery LED Pendant

The Audo Copenhagen Chancery Pendant was designed by Norm Architects and utilises a conical, stepped aluminium shade. This shade encapsulates the inner LED light source and assists in projecting a softly diffused glow down onto the surface below. The ripples in the sheet create a play of light within the silhouette, adding another element of detail to the design. Chancery was designed to be installed at a high point in the room, to hold the room in quiet balance and generate a warm ambience.

The Chancery Pendant is an eye-catching addition to contemporary spaces, especially living rooms, dining areas and home offices. An excellent downlighting solution for functional spaces that still require a calming atmosphere. It can be displayed individually in residential spaces or in multiples for larger commercial interiors.
