PRODUCT DESCRIPTION

Designer: Tom Dixon

Tom Dixon Whirl LED Chandelier

The Whirl LED Chandelier features a hypnotic spiral design, inspired by the Optical Art movement. Lightweight yet durable, the polycarbonate shade is created through a process of injection blow moulding. The vacuum metallisation process deposits a thin layer of metal on the inside of the shade, producing a semi-metallised finish. This metallic finish is available in gold or silver, striking colourways that complement the bold elegance of the design.

The Whirl Chandelier is a bold statement piece that will draw the eye wherever it's installed. The small chandelier features four shades, perfect for adding a statement piece to smaller spaces. The large chandelier features seven shades and a larger frame for a show-stopping aesthetic. When switched on, light is transformed from within, reflecting off the spiral patterns to create a mesmerising play of light and reflection. The coloured shade softens light, creating a warm and cosy ambience, perfect for dining rooms, sitting rooms, and entryways. In commercial spaces, the Whirl Chandelier can be installed individually or in clusters in large spaces such as hotel lobbies for a dazzling installation that will leave a lasting impression.

PRODUCT SPECIFICATION

Light Source: **Small:** 4 x 6W, 3000K, 2300 Lumens
Large: 7 x 6W, 3000K, 3700 Lumens

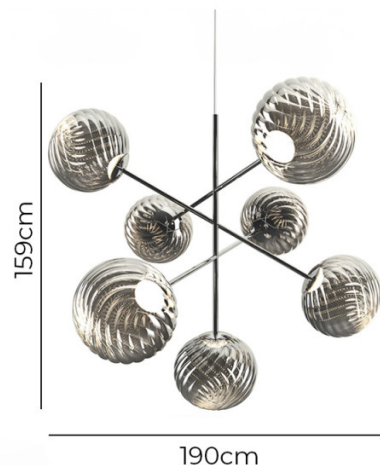

IP Code: 20

Dimming: Dimmable using leading edge and trailing edge.
