PRODUCT DESCRIPTION

Designer: Xavier Manosa

Marset Pleat Box 24 LED Pendant

Marset Pleat Box 24 LED Pendant is a compact, handcrafted ceramic pendant by Xavier Mañosa and Mashallah for Marset. The design comes from the idea of applying a digitally designed fabric crease to a ceramic base, giving the shade its folded upper edge and soft, draped form. The Pleat Box 24 keeps the texture and handmade ceramic character of the wider collection in a size that is easy to place.

The Pleat Box 24 has more width than the 13, but still works well where a smaller pendant is needed. It can be used on its own over a small table, bedside area, or compact counter, or repeated above a kitchen island, bar, or hospitality counter. The ceramic shade is available in several exterior colours, with either glossy white enamel or a 24-carat gold-plated finish on the inside, depending on the variant. The white interior gives a cleaner feel, while the gold interior makes the inside of the shade warmer when lit.

This LED version is hardwired, with a black fabric cord and a ceramic canopy matched to the shade colour. The built-in 2700K LED gives a warm indirect light, and the fitting is dimmable via mains phase dimming. DALI-2 dimming and 3000K options can also be supplied on request. Most suited to kitchens, dining rooms, bedrooms, living rooms, restaurants, hotels, and bars, especially where a smaller ceramic pendant is needed above a table, counter, or bedside area.

Please Note: The Marset Pleat Box 24 LED Pendant can also be supplied with DALI-2 dimming and 3000K options. Please contact us for more information and pricing.

Please Note: As of November 2026 all Marset Pleat Box Pendants are supplied with a black cable and a canopy in the same colour as the selected shade.

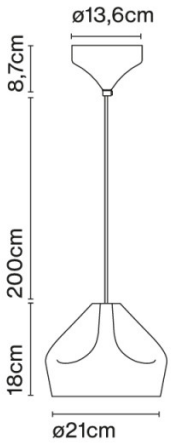

PRODUCT SPECIFICATION

Light Source: 9.89W, 2700K, 113 Lumens

IP Code: 20

Dimming: Dimmable via mains phase dimming.

Dimensions: Shade: Ø21cm
Shade Height: 18cm
Cable Length: 200cm
