PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger 42C LED Ceiling / Wall Light

Marset Ginger 42C LED Ceiling / Wall Light is a larger ceiling and wall light by Joan Gaspar for Marset. The design uses a circular diffuser with the LED hidden behind it, casting light back onto the wall or ceiling for a warm reflected effect. In the wood versions, the diffuser is made from layers of wood and paper pressed under high pressure, allowing the shade to stay very thin while retaining the natural look of the material.

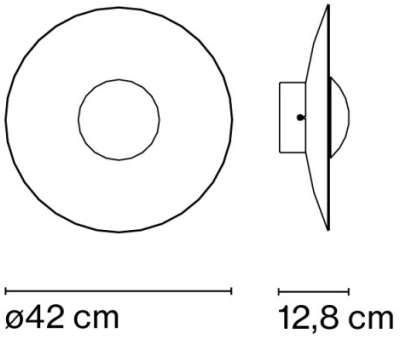

The 42C sits between the 32C and 60C, so it has enough size for larger walls without feeling as dominant as the biggest version. It can be used on its own in living rooms, dining rooms, wide hallways, and commercial interiors, or grouped with other Ginger C fittings using the correct joining accessories. The wood finishes give a warmer look, while the metal finishes feel cleaner and more defined on the wall or ceiling.

The integrated 2700K LED gives a warm reflected light with no visible lamp. Ginger 42C is dimmable using leading-edge and trailing-edge dimming, and can be installed on either the wall or ceiling. Most suited to living rooms, dining rooms, hallways, bedrooms, entrances, hotels, restaurants, and commercial interiors where a larger low-profile light is needed.

Please Note: To install the Marset Ginger LED Ceiling / Wall Light in linked arrangements of two or three fittings, joining accessories may be required. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	19.71W, 2700K, 698 Lumens
IP Code:	20
Dimming:	Dimmable using leading edge and trailing edge (Triac).
