PRODUCT DESCRIPTION

Designer: Joan Gaspar

Marset Ginger 60C LED Ceiling / Wall Light

Marset Ginger 60C LED Ceiling / Wall Light is the largest size in Joan Gaspar's Ginger ceiling and wall range for Marset. The design uses a broad circular diffuser with the LED hidden behind it, reflecting light onto the wall or ceiling. Its larger scale gives the simple Ginger form much more presence, while the shallow depth keeps it suitable for surface-mounted ceiling or wall installation.

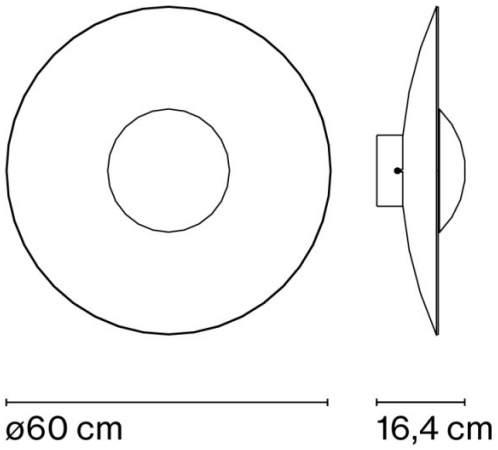

The 60C works best in larger rooms, wide hallways, open living spaces, dining rooms, hotel interiors, and commercial settings where the smaller Ginger C sizes may not have enough visual weight. It can be used on its own as a large reflected wall or ceiling light, or combined with other Ginger C sizes using the correct joining accessories. The finish range includes wood and metal options, with warmer natural finishes, darker finishes, and softer coloured metal versions available.

The integrated 2700K LED gives warm reflected light with no exposed lamp. Ginger 60C is dimmable using leading-edge and trailing-edge dimming, and can be installed on either the wall or ceiling. Most suited to living rooms, dining rooms, large hallways, entrances, hotels, restaurants, offices, and commercial interiors where a large low-profile light can provide a broad reflected glow.

Please Note: To install the Marset Ginger LED Ceiling / Wall Light in linked arrangements of two or three fittings, joining accessories may be required. Please contact us for more information and pricing.

PRODUCT SPECIFICATION

Light Source:	26.09W, 2700K, 1165 Lumens
IP Code:	20
Dimming:	Dimmable using leading edge and trailing edge (Triac).
