PRODUCT DESCRIPTION

Designer: Boris Klimek

Brokis Under Pressure LED Table Lamp

The Brokis Under Pressure Table Lamp draws inspiration from molten glass and how it succumbs to pressure and begins to assume its final form. Designed by Boris Klimek, Under Pressure adds a striking aesthetic to a variety of interiors. The glass is available in numerous finishes and textures, the same as the **Under Pressure Pendant Light** in the same collection, meaning you can easily formulate a luminaire to suit your own personal and interior style.

This table lamp is fitted with two LED light sources, one within the glass shade, and one fitted inside the stem of the lamp. The result is a more even illumination that can be easily controlled via integrated dimmers on the base of the table lamp. A stunning addition to side tables in living rooms and hallways, as well as for display in bedrooms and dining areas. Similarly, the Brokis Under Pressure Table Lamp adds an industrial touch to commercial interiors such as hotels, restaurants and bars.

PRODUCT SPECIFICATION

Light Source: 5W, 2700K, 500 Lumens

IP Code: 20

Dimming: Integrated dimmer on the product.
