PRODUCT DESCRIPTION

Designer: Boris Klimek

Brokis Arcade LED Suspension

Designed by Boris Klimek to resemble floating candles in a vintage chandelier, the Brokis Arcade Suspension brings a modern touch to a classic silhouette. Arcade works both as individual lighting objects and as larger compositions with multiple glass elements, allowing it to adapt to both residential and commercial spaces. Available in black or white with a variety of glass options, Arcade is incredibly versatile and creates a spontaneous line in space.

The inner LED light sources are fitted within the glass of the Brokis Arcade Suspension and generate a softly diffused glow. The apparent levitation of these light sources merges technical simplicity and decorative elegance, creating a distinctive lightness and a subtle sense of play. Arcade is an excellent way to illuminate dining areas, entryways, reception desks, restaurants, bars and hotels.

Please Note: The Brokis Arcade Suspension is supplied as non-dimmable as standard, but can also be provided with different dimming capabilities. Please Contact Us for further information and pricing.
