PRODUCT DESCRIPTION

Designer: Porta Romana Lighting

Porta Romana Huck Wall Light

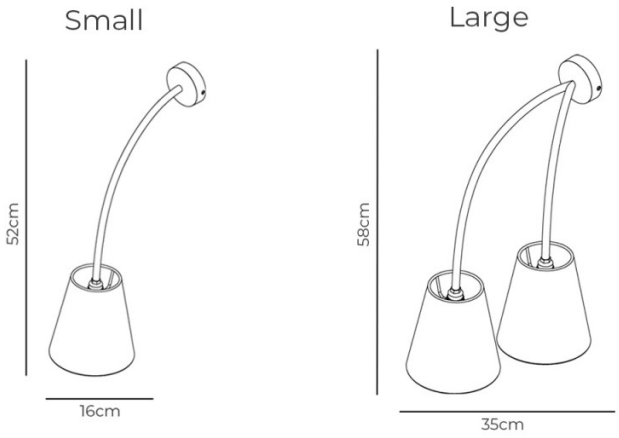

The Porta Romana Huck Wall Light is a playful yet refined design inspired by the delicate sweep of a bug's antennae. Its long, outreaching branch is crafted from forged steel with a decorative brass finish, bringing together sculptural character and warm metallic detail.

The conical shade softens the Huck's distinctive silhouette with natural texture and gentle diffused light. Available in small and large versions, with the large option offered in left and right configurations, the Huck Wall Light can be displayed in a range of compositions. Its IP44 rating allows the Huck to be displayed in wet rooms, bedrooms, hallways, and relaxed living spaces. Full of charm, craftsmanship, and Porta Romana's signature personality, the Huck Wall Light is an expressive choice for interiors that balances elegance with a touch of humour.

The Porta Romana Huck Wall Light is available in different finishes with a wide range of shade shapes, fabrics, and linings. Please contact us for more information and pricing.
