PRODUCT DESCRIPTION

Designer: Porta Romana Lighting

Porta Romana Pillar Wall Light

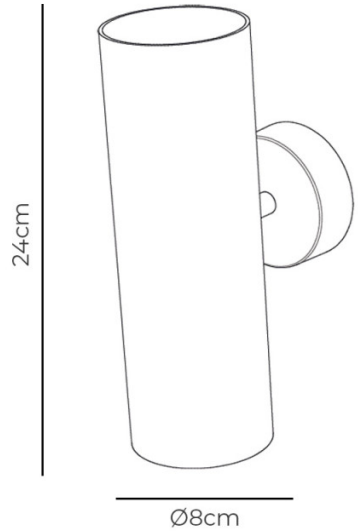

The Porta Romana Pillar Wall Light is a refined, architectural wall light with a clean cylindrical form and beautifully pared-back profile. Designed with a simple, utilitarian aesthetic, its sharp angles and pillar-like silhouette nod to brutalist architecture while remaining elegant enough for contemporary and classic decors alike. The wide range of finishes available allows the Pillar Wall Light to complement a wide range of interior palettes.

Crafted from steel and brass with a decorative finish, the Pillar casts a soft, directional glow through openings at the top and bottom of the lamp, creating an attractive wash of light on the wall. Adapted for use in wet rooms and boasting a compact size, the Pillar is an ideal lighting solution for hallways, bathrooms, bedrooms and layered lighting schemes where understated luxury is required.

The Porta Romana Pillar Wall Light can be painted in alternative finishes. Please contact us for more information.
