Le Klint Urchina Pendant

The Urchina Pendant is Jette Scheib's first design for Le Klint. As the name suggests, Scheib drew inspiration from the sea urchin, echoing its delicate balance between structure and softness. The pendant's organic expression, geometry, and pleated shade beautifully illustrated Le Klint's design language and pleating traditions. With a soft, sculptural presence, the Urchina Pendant is an elegant addition to residential and commercial environments alike.

The Urchina Pendant is crafted from Le Klint's standard foil shade, which is expertly hand-folded in Denmark. Standard shades are UV-treated, washable, and offer long durability. Light oak detailing complements the pendant's natural expression, while adding a sense of hardiness. When illuminated, the shade diffuses light into a warm and gentle glow, creating a comfortable ambience that is perfect for entrance halls, living areas, dining rooms, or bedrooms. In commercial spaces, the Urchina suits hospitality spaces such as hotel lobbies and restaurants, offering a welcoming ambience and timeless aesthetic that defines Le Klint.
