PRODUCT DESCRIPTION

Designer: Hollis + Morris

Hollis + Morris Berm Acrylic LED Sconce

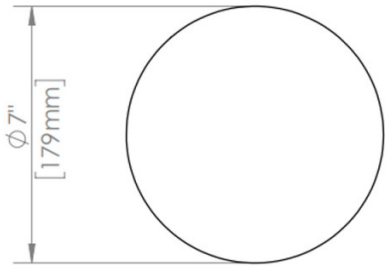

A subtle, diffused lighting solution crafted from solid wood, the Hollis + Morris Berm Acrylic LED Sconce adds character to any interior. While the structure of the Hollis + Morris Berm is crafted from white oak or walnut, the inner light source is diffused through a frosted sheet of acrylic. This luminescent glow serves to highlight the unique intricacies of the solid wood grain.

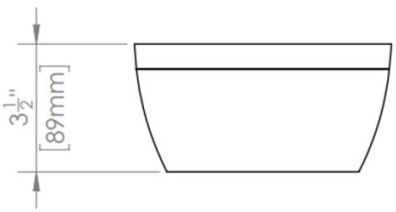

The Hollis + Morris Berm Acrylic LED Sconce can be mounted on either a wall or ceiling, increasing its versatility and allowing it to adapt to a variety of interiors. This surface-mounted lighting solution is available in four wooden finishes: W.Oak / Natural, W.Oak / White, W.Oak / Black or Walnut / Natural. It can be displayed individually for your bedside or in multiples for larger configurations in commercial settings.

Please Note: The Hollis + Morris Berm Acrylic LED Sconce is also available with a colour temperature of 2700K. Please contact us for further information and pricing.
