PRODUCT DESCRIPTION

Designer: Pernille Arlien-Søborg

Audo Copenhagen Admiral Portable Lamp

Audo Copenhagen Admiral Portable Lamp was designed by Pernille Arlien-Søborg and originally developed for Copenhagen's Admiral Hotel to shape the atmosphere around a table. Its sculpted linen shade softens the diffused light into a warm, focused glow, paired with a compact chrome-finish base.

Rechargeable and portable, Admiral provides a warm 2700K light with a three-step integrated dimmer for adjusting the output. The magnetic charging cable supports cordless use, while compatibility with the Audo Charging Board provides an alternative charging option. Admiral is also designed for disassembly, allowing components to be repaired or sorted at the end of their life.

Its compact proportions make Admiral easy to place on smaller tables. In larger dining settings, several lamps can be repeated along the table, adding rhythm and warmth through small clusters of light. It works well in dining areas at home, as well as restaurants and bars where the light needs to stay close to the table and support conversation.

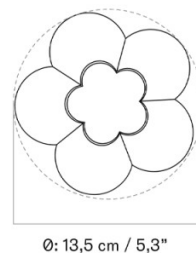

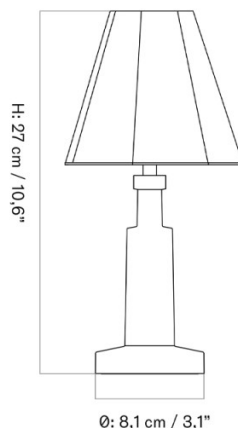

PRODUCT SPECIFICATION

Light Source: 1 x Max 1.5W G4 LED (Included)

IP Code: 20

Dimming: Integrated dimmer on the product.

Dimensions: Height: 27cm
Shade: Ø13.5cm
Cable Length: 80cm
