Bert Frank Eos Chandelier

Bert Frank Eos Chandelier takes inspiration from mid-century Sputnik lighting, with thirteen alabaster globes extending from a central brass structure. Each globe is surrounded by a sand-cast brass shade, retaining the natural grain and texture of the casting process. The smoother, machined brass components contrast with the rougher finish of the shades, while the alabaster diffuses the light from each globe.

Made in England, the Eos Chandelier combines traditional sand-casting techniques with modern manufacturing methods. Available in Brushed Brass, Antique Brass, and Dark Bronze, the fitting uses natural alabaster to diffuse its warm 2700K illumination. Dimmable via TRIAC dimming. The solid brass suspension rod is supplied to a specified drop length, which must be confirmed when ordering, as it cannot be adjusted on site.

The Eos Chandelier is available in Brushed Brass, Antique Brass, and Dark Bronze. With thirteen globes spread across the brass framework, it is a sizeable fitting that needs plenty of space around it. It works particularly well in larger dining rooms, entrance halls, and stairwells.

PRODUCT SPECIFICATION

Light Source:	13 x Max 3W G9 LED (Included)
IP Code:	20
Dimming:	Dimmable via Triac dimming.
Dimensions:	Height: Ø70cm Width: Ø70cm Ceiling Canopy: Ø11cm Ceiling Canopy Height 8.8cm Drop Height: 152cm
