Bert Frank Eos Double Wall Light

Bert Frank Eos Double Wall Light has two illuminated globes set against an oval brass backplate. The sand-cast brass retains the texture and grain of the casting process, contrasting with the smooth, machined brass mount. Made in England, the fitting brings together traditional metalworking techniques and contemporary manufacturing.

The globes are available in a choice of Opal or Alabaster. The Opal version uses frosted glass to diffuse the light softly, while the natural alabaster offers an alternative material with its own surface character. Both provide warm 2700K illumination, with Brushed Brass, Antique Brass, and Dark Bronze available for the metalwork.

Part of the Bert Frank Eos collection, the Double Wall Light combines a vertical arrangement of two globes with a single oval backplate. The fitting is mains dimmable and IP44-rated, allowing it to be used in appropriate bathroom locations as well as other interior spaces. Suited to bedrooms, hallways, living rooms, and appropriately positioned bathrooms.

PRODUCT SPECIFICATION
